

**FOR IMMEDIATE RELEASE**

**GINA VOLMERT SPEAKS AT 23<sup>RD</sup> ANNUAL  
AMERICAN ORTHOPAEDIC FOOT & ANKLE SOCIETY MEETING**

*Ontario, Canada– July 30, 2007-* Gina Volmert, President of GO Partners Health Care Solutions spoke at the Annual Orthopaedic Foot & Ankle Society Meeting in Ontario, Canada. An expert in the Healthcare Industry, Ms Volmert spoke to an audience of Orthopaedic surgeons from across the world that specialize in Foot and Ankle and on the topic of electronic medical record and patient-based database development and software selection. Her discussion included coding/billing systems, how to select and deploy an office MRI, and the “how to’s,” benefits, and challenges of setting up an office-based surgical facility in this in-depth interactive workshop.

The conference, held annually in locations around the world is to foster, promote, support, augment, develop, and encourage investigative knowledge of the medical and surgical care of the foot and ankle in children and adults. It is the goal of the AOFAS to provide physicians who have an interest in foot and ankle surgery with exposure to new knowledge, skills and operative techniques which can optimize care in the treatment of foot and ankle disorders. These goals are met through seminars, symposia, outside speakers, and educational exhibits which have been designed based on evaluation procedure and needs assessment brought forth by the members. Programs are outlined, developed and approved by the Education Planning Committee and by the AOFAS Board of Directors. This material is useful to physician assistants and others with a special interest in foot and ankle surgery. Continuing medical education through the AOFAS is available as either scientific meetings or seminars.
